# Agritec Plant Research s.r.o.

Reg.nr.: 26784246

The company is currently mainly engaged in applied and basic research in agriculture, the environment and the food industry. The main activities include research into gene resources of legumes and flax, research into genetic-breeding and biotechnological methods of flax, legumes, winter rapeseed, hemp and caraway, research into cultivation technologies and integrated protection of these crops. Another important activity is the breeding of new varieties of peas, oil flax, rapeseed and caraway and maintenance breeding of own and licensed varieties. The company is engaged in research into the use of flaxseed for nutrition and the use of short oil flax fiber as an industrial raw material.
