## Smart Innovation Center Ostrava

28. října 3388/111

702 00 Ostrava

Tel.: +420 721 580 561

E-mail: [info@sic-ostrava.cz](mailto:info@sic-ostrava.cz)

WWW: <https://www.skelet-ostrava.cz>

Reg.nr.: 65409574

Director: Ing. Michal Burian, MBA ([info@sic-ostrava.cz](mailto:info@sic-ostrava.cz))

### Operating data of the park

**Membership in STPA:** NO

**State of the park:** in process of accreditation

**Partner in project SPINNET:** NO

**Launch day:** 1.6. 2019

**Founder(s):** Smart Innovation Center s.r.o.

**Owner(s):** Smart Innovation Center s.r.o.

**Operator(s):** Smart Innovation Center s.r.o.

### Type of entity:

**Criteria for acceptance of innovation firm:** Business consisting of research and development, especially focused on SMART technologies.

### Description of the park

#### Introduction

The SKELET Ostrava building, which is operated by Smart Innovation Center s.r.o., is divided into building A and building B. Object A is a seven-storey building that operates in the science and technology park and business incubator mode with a focus on SMART REGIONS. Object B serves as a multifunctional object.

#### Description of technology transfer

Regarding the fact that our park has been newly operated, there have been no technology transfers so far.

#### Innovative entrepreneurship training

Regarding the fact that our park has been opened not a long time ago, we are just about the phase when the new clients are being settled and contacts for future cooperation are being established.

#### Advisory services

Regarding the fact that our park has been opened not a long time ago, we can only start providing the counselling service after the first companies are being settled.

## **Innovation infrastructure**

On the roof of building A there are photovoltaic panels that cover part of the electricity consumption. Heat is provided by deep geothermal wells with a total length of more than 2 km, which are equipped with heat pumps. The indoor climate is controlled not only by temperature but also by humidity. The modern air conditioning system allows the air to be humidified and dehumidified. The ventilated facade of modern materials carries triple glazed windows. SMART mobility - there are 14 charging points for electric vehicles, as well as bike or electric bikes. SMART ventilation system brings energy savings - recuperation and automatic detection of manual ventilation mode through windows with autonomous ventilation shutdown system. Osvětlení v budově je vybaveno snímači určenými k detekci intenzity přirozeného osvětlení, samozřejmostí jsou pohybová čidla.

## **Cooperation with universities**

We cooperate with the Mining University and the University of Ostrava.
