Owner(s): Tomas Bata University in Zlin, Regional Government (Region Zlin)

Operator(s): Technology innovation centre Ltd.

Type of entity: Limited company (Ltd.)

Criteria for acceptance of innovation firm: request + business plan

Description of the park

Introduction

The Technology Innovation Centre s.r.o. was established in 2005 by Tomáš Baťa University in Zlín and the Zlín Region. The main objective of the Technology Innovation Centre is implementing strategy of the economic development of the Zlín Region, design conditions for the establishment and development of innovation enterprises for using R&D results in enterprising practice while stressing high-tech technologies and for the development of new lines, technologies and services. Next objective is the development of support tools of innovation activities enabling stimulation of the economic growth and prosperity of the region, increase of competitiveness of local firms and contribution to creating and sustainability of highly-qualified jobs.

TIC operates the building of Business Innovation Centre Zlín, the site is owned by the Statutory City of Zlín, The TIC operates it on the grounds of contract on loan and Zlín is a partner of the whole project. Premises are mostly of office nature and some 5500 m² of area is available, while leasable area is roughly half. A part of premises is determined for emerging enterprises in advantaged regime which are involved in so called incubation program. Remainign part is used by innovation enterprises in the regime of Technology Park and a part of premises is determined for institutions for enterprising support. Rent involves basic technical and administrative services, such as housekeeping, security of common premises, access to the internet (for incubators) and services of receptions (except to copying and similar services, those are subject to valid price list). There are meeting rooms and training hall available of capacity up to 130 persons (firms residing in the building have some discount). The building also included vegetarian dining room and café and next

catering amenities are in close vicinity. A part of premises is furnished.

Description of technology transfer

We provide infrastructure for spin-off firms.

We share publishing the magazine Company Partner, edition some 20 thous. Issues, distribution to firms of the Zlín Region – presentation of R&D results.

We support innovation vouchers of the Zlín Region (collaboration in the preparation of concept, PR support, communicating with enterprising sector at processing of applications)

We have shared the preparation of several license contract on results of R&D in TBU.

Innovative entrepreneurship training

The TIC Zlín realizes education and community building in the following formats:

Club Start-up 23

we organize educational workshops for a target group of students and emerging entrepreneurs.

The TIC has been organizing on the annual basis a run of workshops for students dealing with the issue of enterprising aimed at business stories, case studies, motivation and inspiration, financing, venture capital, etc. Moreover, workshops represent even a platform for informal meeting of this target group, exchange of experience, discussion over business ideas and their consulting. For students at secondary schools are realized workshops even in the form of visiting lessons, excursions in Business Incubator, etc.

Business Academy

TIC prepared the concept of the optional subject entitled „Business Academy“ The course has been organizing by TIC. “—.

Best Business Plan competition

Advisory services

Standard counselling

this is used by many customers outside the system of incubator – emerging entrepreneurs who come to consult their business plan, possibilities of financing, intellectual property protection is discussed etc.

Systematic counselling in connection with Business Incubator – so called incubation program is running via regular evaluation of the company development on the basis of own evaluation mechanism; with each company are discussed especially areas of enterprising selected in advance with the aim is to obtain information on the current status of the firm and at the same time, via that discussion to obtain feed-back for client (if they do not forget something which could...). The evaluation also represents a systematic dialog between the client and incubator from which the requirement can ensue on next collaboration.

Systematic counselling in connection with “Best business plan” competition

this is counselling in the course of competition and successive work with selected plans which are realized. It is mainly consulting on business plan development, and successively, assistance during start-up of enterprising, mediation of contacts to suitable mentors / coaches / potential investors. In

2014 was launched acceleration program, where the participants, who proceeded to the second run, have a possibility of consulting their projects with representatives of partners already during finalization of their plan. In case of residing in Incubator, the standard incubation program continues.

Innovation infrastructure

The Innovation Infrastructure of the Zlin Region is a network of seven cooperative organizations with common goal to support innovative business in the Zlin Region. The network was established in 2008 in accordance with the Regional Innovation Strategy of the Zlin Region for years 2008 - 2013 as a network of business incubators, science and technology parks and technology transfer centres. Organisations involved have been actively cooperating on joint projects or by know-how transfer and best practices exchange.

The Innovation infrastructure of the Zlin Region provides supportive services not only for innovative entrepreneurs but also for start up business, student and large public.

Initiator tor of the establishment of the regional network PI, STP and CTT - common projects, activities, shared good/bad practices, common promotion

- common problem solving - e.g. conditions of Prosperity program- —value handover
- establishment of consortia of selected partners for cross boundary collaboration projects (e.g. Trenčiansko-Zlín Innovation Platform, Education - Innovation - Partnership)
- partnership in Best Business Plan competition, Innovation Enterprise of the Zlín Region
- workshops / work with secondary schools in the catchment area of individual partners
- common PR - annual report, competitions, web

Cooperation with universities

Work with students, optional subject entitled Business Academy, cooperation within Best Business Plan competition, cooperation within Innovation Company of the Zlin Region competition, cooperation within the Innovation infrastructure of the Zlin Region, innovation vouchers, technology transfer etc.

Tomas Bata University is one of the owners of the company.
