Criteria for acceptance of innovation firm: description of the new rproduct or technology, forecast competition in the market

Description of the park

Introduction

BIC Brno is a business and innovation center, which has been operating in the Czech Republic for over 20 years. Our actions and activities in the field of „technology transfer“ create a connecting bridge between research institutions and industry and promoting the transfer of innovation into practice. In the course of our existence, we have launched more than 100 innovative companies in 10 incubators and established cooperation with more than 500 other.

We also research the entire transfer process of R&D results into practice, thereby trying to increase the competitiveness of Czech companies and research institutions.
